Dear Shri Harpal Singh,

Thanks for your letter dated 13<sup>th</sup> August, 2009 inviting my comments and views on report on non-communicable chronic diseases in India.

Congratulations on excellent empirical work on non-communicable chronic diseases. Report would help teachers of this institute to share findings with nursing students and utilize it for making it as base for their research work. Thanks for sharing this report with me.

With regards,

Yours sincerely,

  
(Dr. Indarjit Walia)
